Employment Details

Samvardhana Motherson International Limited , Noida

Frontend Developer (April 2024 – Till Present)

Roles and Responsibilities:

- Creating Frontend code using Tailwind/HTML/CSS/Bootstrap based on approved PSD designs.
- Testing and delivering code after each sprint to minimize issues in UAT.
- Publishing daily status reports to update stakeholders on work progress and current issues.
- Working with Azure repositories.

Project: Surge

- **Description:** Currently working on SURGE, an internal project and resource management tool at Samvardhana Motherson International Limited. The platform tracks users, teams, assigned projects, and project statuses through a dynamic and interactive dashboard. Key features include role-based access control, where only admins have full access and superadmin assign permissions to users based on their roles; users can access only the modules they are authorized to view, add, update, or delete. Additional functionality includes dark mode, language translation, font size control for accessibility, and automated PPT generation and export for reporting. The front-end is developed using React.js, Chakra UI, and Tailwind CSS, with seamless REST API integration for real-time data handling and updates.

Technologies Used: React.js, Rest API integration, JavaScript, Tailwind CSS, HTML5

Front End Developer (Jan 2022 to Nov 2023)

Roles and Responsibilities:

- Creating Frontend code using Tailwind/HTML/CSS/Bootstrap based on approved PSD designs.
- Testing and delivering code after each sprint to minimize issues in UAT.
- Publishing daily status reports to update stakeholders on work progress and current issues.
- Working with Git and Azure repositories.
